Contents

	Page
Foreword	vii
Preface	ix

PART I The First Ten Years

Introduction	3
Chapter 1. The Engine	5
Chapter 2. The Beginning	11
Chapter 3. The Requirements	15
Chapter 4. The Obstacles	17
Getting Started.	17
Component Testing	19
Engine Testing.	21
Problem Management	21
Start and Shutdown	23
High Pressure Fuel Turbopump Sub-Synchronous Whirl	31
High Pressure Oxidizer Turbopump Explosions.	35
High Pressure Fuel Turbopump Turbine Blade Failures	44
Engine 2001 Main Oxidizer Valve Fire	47
Engine 2002 Main Fuel Valve Fracture	49
Nozzle Feed Line Failures	52
Fuel Preburner Burn Through	56
Chapter 5. The Goals	61
Chapter 6. The First Flight	65

PART II
The Second Decade

Introduction	71
Chapter 7. The Glory of Columbia	73
Chapter 8. Full Power Level Moratorium	79
Chapter 9. Full Power Level Development	83
Main Injector LOX Post Failures.	84
Fuel Preburner Injector LOX Post Failures	95
Engine 0204 High Pressure Fuel Turbopump Failure	100
Chapter 10. Full Power Level Certification	105
Engine 2010 First Certification Cycle	106
Engine 0110 Fuel Preburner Fuel Blockage by Ice	106
Engine 2010 Second Certification Cycle	110
Engine 2013 and the HPFTP Kaiser Hat Nut	111
Engine 0107 Oxidizer Preburner Oxidizer Valve Ball Seal	116
Engine 2014 First Certification Cycle	121
Engine 2208 Ultrasonic Flowmeter	122
Time Out for Acceptance Tests	125
High Pressure Oxidizer Turbopump De-certification	134
Challenger Flight Readiness Firing and Leaks	135
Engine 2014 Second Cycle and the Second FPL Moratorium	142
Chapter 11. Program Reassessment and Realignment	145
Chapter 12. Phase II Development	149
Engine 0108 High Pressure Fuel Turbopump Coolant Liner	150
Engine 2308 High Pressure Fuel Turbopump Impeller	154
Engine 0207 Fuel Preburner Boss	155
Engine 2308 Main Combustion Chamber	157
Phase II Certification: Engine 2105 and Engine 2116.	159
Main LOX Dome Inlet Tee Four Kilohertz	160
Chapter 13. Phase I Flight Program	165
STS-6 Engine 2015 Fuel Preburner ASI LOX Supply Line	165
STS-7	166
STS-8 Engine 2017 Fuel Preburner ASI LOX Supply Line	167
STS-9 (41-A).	169
STS-11 (41-B) Engine 2015 Oxidizer Preburner ASI Fuel Supply	171
STS-13 (41-C)	172
STS-14 (41-D) Abort Engine 2017 Main Fuel Valve Actuator	172
STS-17 (41-G)	174

	Page
STS-19 (51-A)	175
STS-20 (51-C)	175
STS-23 (51-D)	176
STS-24 (51-B)	176
STS-25 (51-G)	176
STS-26 (51-F) Abort Engine 2020 Chamber Coolant Valve Actuator	177
STS-26 (51-F) Engine 2023 In-Flight Erroneous Shutdown . . .	177
STS-27 (51-I).	181
STS-28 (51-J)	181
STS-30 (61-A)	181
STS-31 (61-B)	182
STS-32 (61-C)	183
STS-33 (51-L)	183
 Chapter 14. The Tragedy of Challenger	 185
 Chapter 15. Return to Flight	 191
Engine 2106 Oxidizer Preburner Injector Inter-Propellant Plate Braze	193
Engine 2105 Flight Certification Extension and More	197
Return to Flight Development: Engine 0211 and Engine 2206 . . .	197
Return to Flight: STS-26R	199
Engine 2206 Low Pressure Fuel Duct Flex Joint Tripod	201
Engine 0212 4 KHz Certification and HPOTP Number Two Bearing	204
Engine 0215 HPFTP Second Stage Turbine Blade	210
 Chapter 16. Building Margin	 213
Large Throat Main Combustion Chamber	213
Technology Test Bed	215
Phase II+ Powerhead.	216
External Heat Exchanger	219
Alternate Turbopumps	220

PART III
Beyond the Second Decade

Chapter 17. Beyond the Second Decade: Summary.	225
--	-----

APPENDICES

Appendix A. Space Shuttle Main Engine Management History	233
Appendix B. Space Shuttle Launch and Landing History	234

	Page
Appendix C. Acronyms and Abbreviations	240
Appendix D. List of Illustrations	244
Appendix E. References – The First Ten Years	247
Appendix F. References – The Second Decade and Beyond	250
